## **Tournament Format**

The majority of the tournament will be played during the week in the evenings. We may schedule some games on the weekends opposite of league games. Essentially you will be playing one match per week over a 3-to-4-week period. We have been using this format with boys' basketball for the past 17 years. We tried it with girls' volleyball a few years ago, and all the teams seemed to enjoy it. It's a great tune-up before the city tournament.

The dates for the tournament are a range of time we have blocked off for the tournament. When we have the final number of teams, and create the brackets, the exact dates will be finalized.
